[Project No. 2290-006-CA]**Southern California Edison Company; Notice of Availability of Draft Environmental Assessment**

March 23, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for new license for an existing licensed hydropower project on the Kern River owned and operated by the Southern California Edison Company: the Kern River No. 3 Project No. 2290, located in Kern and Tulare Counties, California. Subsequently, the Commission's staff prepared a Draft Environmental Assessment (DEA) that discusses the relicensing of the project.

In the DEA, staff evaluates the potential environmental impacts that would result from the continued operation of the project. Staff concludes that relicensing the project with appropriate enhancement measures would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street, NE., Washington, DC 20426.

Any comments should be filed within 45 days from the date of this notice and should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426. Please affix Project No. 2290 to the first page of all comments.
